

Breath of Mountain Air

Join for a two-day virtual event focused on how energy efficiency improvements and clean fleets can benefit both air quality and budgets for local governments and schools. Click below to see detailed agendas and to register.

DAY 1: FLEET FOCUS

Jan 25, 9:30 a.m.-noon

JAN
25

State and Federal programs are investing millions into alternative fuel fleets and EV infrastructure. Learn how to position your project and hear how they support air quality improvements across NC.

DAY 2: IMPROVING THE BUILDING ENVELOPE

Jan 27, 9:30 a.m.-noon

JAN
27

More funding is available to local governments and schools for energy efficiency and renewable programs than ever before. Learn about the free resources available to improve public buildings and hear about the sources of air pollution.
