INDEPENDENT AUDITORS' REPORT

Board of Delegates Land of Sky Regional Council Asheville, North Carolina

Opinions

We have audited accompanying financial statements of the governmental activities, and each major fund of the Land of Sky Regional Council (the "Council"), as of and for the year ended June 30, 2022 and the related notes to the financial statements, which collectively comprise of the Council's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund, and the aggregate remaining fund information of Land of Sky Regional Council as of June 30, 2022, and the respective changes in financial position, the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Council and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Audit of the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raises substantial doubt about the Council's ability to continue as a going concern for the twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Governmental Auditing Standards* will always detect material statement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Governmental Auditing Standards we

- Exercised professional judgement and maintained professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsible to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Council's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Council's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 4 through 12 and the Schedule of the Proportionate Share of the Net Pension Liability, and the Schedule of Council Contributions on pages 40 and 41, respectively be presented to supplement the basic financial statements. Such information is the responsibility of management, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Land of Sky Regional Council's basic financial statements. The combining fund financial statements, individual fund budgetary schedule and other indirect cost schedule, as well as the

accompanying schedule of expenditures of federal and state awards as required by Title 2 *U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the State Single Audit Implementation Act are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements, budgetary schedule, other indirect cost schedule, and the schedule of expenditures of federal and state awards is fairly stated in all material respects in relation to the financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2022 on our consideration of Land of Sky Regional Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Land of Sky Regional Council's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Land of Sky Regional Council's internal control over financial reporting and compliance.

Anderson Smith & Wike PLLC

December 9, 2022 Elon, North Carolina (336) 380-4123 As management of Land of Sky Regional Council (the Council) we offer readers of the Council's financial statements this narrative overview and analysis of the financial activities of Land of Sky Regional Council for the fiscal year ended June 30, 2022. This information should be read in conjunction with the audited financial statements included in this report.

Overview of Land of Sky Regional Council

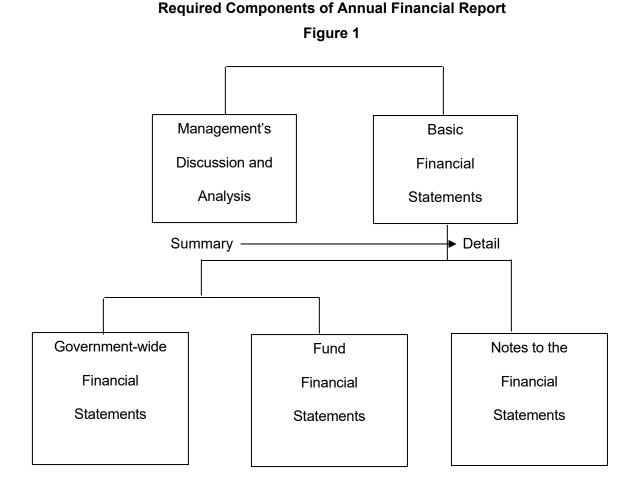

Land of Sky Regional Council is a Council of Governments that serves four counties and fifteen municipalities in the western mountains area of North Carolina. We administer various federal, state, and local programs for the benefit of our member governments.

Financial Highlights

- The assets and deferred outflows of resources of the Council exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$4,126,906 (net position).
- The Council's total net position increased by \$652,400.
- As of the close of the current fiscal year, the Council's governmental fund reported an ending fund balance of \$3,942,636, an increase of \$549,708 in comparison with the prior year. Of this total amount, \$1,828,349 is restricted by state statute.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$2,093,105.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Council's basic financial statements which consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see figure 1). The basic financial statements present two different views of the Council through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Council.

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the *Government-wide Financial Statements*. They provide both short and long-term information about the Council's financial status.

The next statements (Exhibits 3 through 6) are *Fund Financial Statements*. These statements focus on the activities of the individual parts of the Council's government. These statements provide more detail than the government-wide statements. There are three parts to the fund financial statements: 1) the governmental funds statements, 2) the budgetary comparison statement, and 3) the fiduciary fund statements.

The next section of the basic financial statements is the *notes to the financial statements*. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, *supplemental information* is provided to show details about the Council's individual funds. Budgetary information required by the North Carolina General Statutes also can be found in this part of the statements.

Government-wide Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Council's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Council's financial status as a whole.

The two government-wide statements report the Council's net position and how it has changed. Net position is the difference between the Council's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Council's financial condition.

The government-wide statements may be divided into three categories: 1) governmental activities; 2) business-type activities; and 3) component units. However, the Council does not have any business-type activities or component units. The governmental activities include most of the Council's basic services such as general administration, economic and community development, human services, environmental protection, workforce development and transportation planning services. State and federal grants, contracts with local governments and member government dues finance most of these activities.

The government-wide financial statements are Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Council's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Council, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Council's budget ordinance. All of the funds of the Council can be divided into two categories: governmental funds and fiduciary funds.

Land of Sky Regional Council has two types of funds:

Governmental funds: Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. All of the Council's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Council's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Council adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document. It also authorizes the Council to obtain funds from identified

LAND OF SKY REGIONAL COUNCIL MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2022

sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Council complied with the budget ordinance and whether the Council succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the Council; 2) the final budget as amended by the Council; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

The governmental fund statements are shown as Exhibits 3, 4 and 5 of this report.

Fiduciary fund: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The Council has three fiduciary funds, which are custodial funds.

The fiduciary fund statements are shown as Exhibits 6 and 7 of this report.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the Council's progress in funding its obligation to provide pension benefits to its employees.

Interdependence with Other Entities: The Council depends on financial resources flowing from, or associated with, both the federal government and the State of North Carolina. Because of this dependency, the Council is subject to changes in specific flows of intergovernmental revenues based on modifications to federal and state laws and federal and state appropriations.

Financial Analysis of the Council as a Whole

Net position is an indicator of the fiscal health of the Council. Assets exceeded liabilities by \$4,126,906 as of June 30, 2022. A significant portion of net position is restricted for Stabilization by State Statute of \$1,828,349. \$983,613 is restricted for the Revolving loan program.

Following is a summary of the Statement of Net Position:

Table 1							
Condensed Statement of	Condensed Statement of Net Position						
As of June 30, 2022 and 2021							
		Governmen	ıtal	Activities			
	(6/30/2022		6/30/2021			
Current assets	\$	7,553,076	\$	6,786,210			
Capital assets		6,443		19,831			
Long-term note receivable		983,613		983,613			
Total assets		8,543,132		7,789,654			
				_			
Deferred outflows of resources		755,010		576,793			
Current liabilities		3,811,284		2,371,525			
Long-term liabilities		1,699,993		2,467,722			
Total liabilities		5,511,277		4,839,247			
Deferred inflows of resources		668,021		52,694			
		<u> </u>		· · · · · · · · · · · · · · · · · · ·			
Net investment in capital assets		6,443		19,831			
Restricted net position		2,811,962		3,479,197			
Unrestricted net position		1,308,501	_	(24,522)			
Total net assets	\$	4,126,906	\$	3,474,506			
	Ė	<u> </u>	Ė	· · ·			

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Council exceeded liabilities and deferred inflows by \$4,126,906 as of June 30, 2022. The Council's net position increased by \$652,400 for the year ended June 30, 2022. A portion of the Council's net position, \$6,443, reflects the Council's investment in capital assets, net of related debt. An additional portion of the Land of Sky Regional Council's net position, \$2,811,962 represents resources that are subject to external restrictions on how they may be used. \$1,828,349 is restricted by the State's Stabilization by State Statute. \$983,613 is restricted for the Council's revolving loan program. The remaining balance of \$1,308,501 is unrestricted.

The following table shows the revenues and expenses for the Council for the current fiscal year.

Table 2							
Condensed Statement of Revenues	-	_		Net Position			
For the Fiscal Years Er	nded June	e 30, 2022 and 1	2021				
		Governmental Activities					
		6/30/2022		6/30/2021			
Revenues:							
Program revenues:							
Charges for services	\$	363,750	\$	1,083,855			
Operating grants and							
contributions		12,317,128		10,390,652			
General revenues:							
Other revenues		397,488		195,215			
Total revenues		13,078,366		11,669,722			
Expenses:							
Governmental activities: General government Public safety		211,509		178,610			
Economic and physical							
development		2,451,356		1,094,773			
Human services		5,902,094		5,996,330			
Transportation		1,923,117		2,095,223			
Workforce development		1,937,890		1,874,232			
Total expenses		12,425,966		11,239,168			
Change in net position		652,400		430,554			
Beginning net position		3,474,506		3,043,952			
Ending net position	\$	4,126,906	\$	3,474,506			

Governmental activities increased the Council's net position by \$652,400. This reflects the Council's focus on utilizing all available resources for local economic development and the performance of services related to those contracts in cooperation with member governments in its region while also maintaining a healthy level of net position.

Financial Analysis of the Council's Funds

Governmental Fund: The focus of the Council's governmental fund is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Land of Sky Regional Council's financing requirements.

The General Fund is the operating fund of the Council. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$2,093,105 while total fund balance reached \$3,942,636, an increase of \$549,708 (16.2%) from the prior year. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represented 16.6% of total General Fund expenditures. Total fund balance represented 31.5% of total General Fund expenditures.

General Fund Budgetary Highlights

During the fiscal year, the Council revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Capital Assets

The Council's investment in capital assets for its governmental activities as of June 30, 2022 totals \$6,443 (net of accumulated depreciation). These assets include office space and leasehold improvements, office and computer equipment and software.

The following is a summary of the capital assets, net of depreciation at year-end.

Table 3						
Summary of Capital Assets						
As of June 30, 20	22 and 2	2021				
Governmental Activities						
	6/30/2022 6/30/2021					
Building and improvements Equipment and furniture	\$	5,417 1,026	\$	7,622 12,209		
Total	\$	6,443	\$	19,831		

Debt Outstanding

As of June 30, 2022, the outstanding debt of the Council consisted of \$1,159,326 of a lease related to the Council building. Of total outstanding debt, \$75,522 is included in current liabilities. Additional information on the Council's capital lease can be found in Note 2 of the financial statements.

Following is a summary of the Council's outstanding debt at year end:

Table 4					
Outstanding Debt					
As of June 30, 2	2022 and 2021				
	Governn	nental Activities			
	6/30/22 6/30/21

Current portion	\$ 75,5	22 \$ 72,482			
Long-term portion	1,083,8	04 1,159,327			
Total	\$ 1,159,3	26 \$1,231,809			

Economic Factors and Next Years Budgets and Rates

- The Council has developed a strategic plan for the organization and is in the process of updating
 it. It is expected this will result in the adoption of new priorities that could expand services and
 programs and, in turn, have positive impacts on Council revenue.
- Due to the region's historically low unemployment rate as compared to other regions in North Carolina, continued reductions in workforce funding formula funds are expected. However, the Council has received one-time grant funding for workforce programs that make up for some of this loss in funding. With the impact of COVID-19, the region for a brief time had the highest unemployment rate in the state, which resulted in more workforce funding received in future years to serve the region's unemployed.
- New reporting, record keeping, and administrative requirements for federal funding programs
 continue to stress the Council's finance and administrative functions. It is anticipated additional
 capacity for the Council's internal functions will be required to meet the workload demand.
- The Council has been the beneficiary of significant funding from federal and state sources that
 may not be recurring as these funds were authorized to respond to the pandemic. Management
 is aware of the uncertainty of future funding in these program areas and have taken appropriate
 action to prepare for the risk that these funds will no longer be available.
- The Council has focused on diversifying revenue sources with private funding. Significant
 foundation and private support has been critical for all departments of the Council. Management
 believes that these private funders will be more critical to the Council going forward.

Impact of Coronavirus on the Council

During the fiscal year, the state and nation continued to be affected by the spread of a coronavirus (COVID-19). The Council continued to serve our region with a combination of virtual meetings, remote work, and in person work. Additional expenses were incurred as a result of COVID-19 including: purchase of personal protective equipment, office equipment, and virtual platforms. In addition, the Council received grants from the federal government to assist with these additional expenses incurred due to COVID-19.

Requests for Information

This report is intended to provide a summary of the financial condition of Land of Sky Regional Council. Questions or requests for additional information should be addressed to the Finance Director, Land of Sky Regional Council, 339 New Leicester Highway, Suite 140, Asheville, North Carolina, 28806. You may find additional information about the Council by visiting our website at www.landofsky.org.

nounts reported for governmental activities in the statement of activities are different cause:	(0	continued)
·		
Net changes in fund balance - governmental fund	\$	549,708
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of depreciation expense in the		
current period.		(13,388)
Governmental funds report right to use leased assets as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over the life of the lease and		
reported as amortization expense. This is the amount by which capitalized right to use leased asset expenditures exceeded amortization in the current period.		(13,695)
Contributions to the pension plan in the current fiscal year are not included in the Statement of Activities.		313,661
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are		
deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		72,483
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental		
funds.		(400.470)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Land of Sky Regional Council ("the Council") conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

General

The Council was created to plan or to see that plans are established and executed that will foster desirable social, cultural, ecological and economic conditions within the region. It covers a four county area comprising Region B in Western North Carolina. The four counties served by the Council are Buncombe, Henderson, Madison and Transylvania. Each member government within the region is entitled to a delegation of one member. This delegation has one vote in the election of the executive committee.

Reporting Entity

The Council, a regional council of governments established under State Law [G.S. 160A-470], is governed by representatives from its member governments in the counties along with municipalities in each county.

Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the Council. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the effect of internal activities upon revenues and expenses. These statements present the *governmental activities* of the Council. Governmental activities generally are financed through intergovernmental revenues and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Council's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Council's funds, including its fiduciary fund. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds, if any, are aggregated and reported as nonmajor funds. The fiduciary fund is presented separately.

The Council reports the following major governmental fund:

General Fund. The General Fund is the general operating fund of the Council. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are federal and state grants, contracts with local governments and member government dues. Primary expenditures are for administration and for program purposes, including salaries and fringe benefits.

The Council reports two fiduciary funds. These funds are custodial in nature and do not involve the measurement of operating results. The following custodial funds account for assets the Council holds on behalf of others:

WNC Highway Corridors Association. This fund accounts for the assets and activities of the I-26 Corridor Association, an unincorporated association for which the Council acts as its fiscal agent.

CarolinaWest. This fund accounts for the assets and activities of CarolinaWest, an unincorporated economic development association for which the Council acts as its fiscal agent.

Measurement Focus and Basis of Accounting

Government-wide and Fiduciary Fund Financial Statements. The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Council gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Council considers all revenues available if they are collected within 90 days after year-end. Grant revenues which are unearned at year-end are recorded as unearned revenues.

Those revenues susceptible to accrual are member dues, investment earnings, technical assistance contracts, contracts and fees, and federal and state restricted intergovernmental revenues. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been satisfied.

Budgetary Data

The Council's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund. All annual appropriations lapse at the fiscal year-end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds. All amendments (except as noted below) must be approved by the governing board except transfers from one appropriation to another within the same fund and program in any amounts. Such transfers may be made by the finance director but must be reported to the Board at its next regular meeting. The finance director is also permitted to authorize expenditures from the contingency account, if any, provided that such expenditures are transferred to an existing appropriation on a budget line-item before the expenditure is made. All such transfers must be reported to the Board at its next regular meeting. The Executive Director, or in his absence, the Chair of the Council or the Deputy Executive Director shall have the authority to approve budget amendments required as part of the contract execution process if: 1) the program/activity in question is included as part of the approved budget; 2) the program/activity in question has traditionally been part of the Council's ongoing business; 3) the program/activity in question is being carried over from the previous fiscal year; or 4) the budget for the program/activity in question does not exceed \$25,000. Reports of such budget amendments shall be made to the Executive Committee at their next meeting and officially recorded as part of the Executive Committee meeting minutes. During the year, several amendments to the original budget were necessary. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses or expenditures during the reporting period. Actual results could differ from those estimates.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

Deposits and Investments

All deposits of the Council are made in Council-designated official depositories and are secured as required by State law [G.S. 159-31]. The Council may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Council may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Council to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States, obligations of the State of North Carolina, bonds and notes of any North Carolina local government or public authority, obligations of certain non-guaranteed federal agencies, certain high-quality issues of commercial paper and bankers' acceptances, and the North Carolina Capital Management Trust (NCCMT). The Council's investments are reported at fair value. The NCCMT consists of a SEC-registered mutual fund (the Government Portfolio) and is authorized by G.S. 159-30(c)(8). The Government Portfolio, which invests in treasuries and government agencies, is a money market mutual fund (2a7) and maintains an AAAm rating from S&P and AAAmf by Moody's Investor Service. It is reported at fair value.

Cash and Cash Equivalents

The Council pools money from several funds to facilitate disbursement and investment and to maximize investment income and considers all cash and investments to be cash and cash equivalents. The Council considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash and cash equivalents.

Right to use assets

The Council has recorded right to use lease assets as a result of implementing GASB 87. The right to use assets are initially measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the lease into service. The right to use assets are amortized on a straight-line basis over the life of the related lease.

Capital Assets

Capital assets are defined by the Council as assets with an initial, individual cost greater than or equal to \$5,000 and an estimated useful life in excess of two years. Purchased or constructed capital assets are reported at cost. Donated capital assets received prior to June 15, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 15, 2015 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Years
Buildings	26
Building improvements	7 - 15
Vehicles	6
Furniture and equipment	3 - 7
Copiers	4 - 7
Computer equipment and software	4 - 5

Note Receivable

The note receivable of the Council relates to financing assistance for a multi-family residential real estate project in Greensboro, North Carolina. The note was funded through the Council's revolving loan program. No allowance for doubtful accounts has been recorded since Council feels the full balance is collectible. In addition, the amount of principal due on the note within one year is not significant.

Deferred outflows and inflows of resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an expense or expenditure until then. The Council has one item that meets this criterion - pension related deferrals and contributions made to the plan subsequent to the measurement date. The Council also reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and will not be recognized as revenue until then. The Council has two items that meet this criterion - pension related deferrals in the Statement of Net Position and the note receivable related deferral in the General Fund.

Long-term obligations

In the government-wide financial statements, capital leases and other long-term obligations are reported as liabilities in the applicable governmental activities.

Compensated Absences

The vacation policy of the Council provides for the accumulation of up to thirty days earned vacation leave with such leave being fully vested when earned. For the Council's government-wide financial statements, an expense and a liability for compensated absences and the salary-related payments are recorded at the fiscal year end on a FIFO basis, assuming that employees are taking leave time as it is earned.

The sick leave policy of the Council provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Council has no obligation for accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

Net Position

Net position in the government-wide financial statements are classified as net investment in capital assets, net of related debt; restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments, or imposed by law through State statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of three classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Restricted fund balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute - portion of fund balance that is restricted by State Statute [G.S. 159-8(a)].

Assigned fund balance – portion of fund balance that the Council intends to use for specific purposes.

Subsequent year's expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted. The Council approves the appropriation.

Unassigned fund balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Council has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: proportionally as dictated by grant requirements, federal funds, State funds, local funds, and other funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Council.

Revenues, Expenditures, and Expenses

Allocation of Indirect Costs

Indirect costs are allocated to the various grants at 44.22% of direct salaries and fringe benefits for the year ended June 30, 2022. The Economic Development Administration, the Council's oversight agency has reviewed and found no fault in the provisional rate. The Council must account for differences between estimated and actual indirect costs by either: a) making an adjustment to its future indirect cost rate for the difference carried forward or b) making adjustments to the costs charged to the various programs based on the actual charges. The actual indirect cost rate for the year ended June 30, 2022 is 41.47% of direct salaries and fringe.

Grant Revenue

The Council recognizes revenues (net of estimated uncollectible amounts, if any), when all applicable eligibility requirements, including time requirements, are met. Resources transmitted to the Council before meeting the eligibility requirements are recorded and reported as unavailable revenues.

In-Kind Contributions

In-kind contributions consist principally of the estimated fair value of services or facilities provided by various persons or agencies.

Defined Benefit Pension Plan

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System ("LGERS") and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Council's employer contributions are recognized when due and the Council has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

NOTE 2 - DETAIL NOTES ON ALL FUNDS

Assets

Deposits

All the deposits of the Council are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Council's agent in the Council's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Council, these deposits are considered to be held by the Council's agent in the Council's name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Council or the escrow agent. Because of the inability to measure the exact amount of collateral pledges for the Council under the Pooling Method, the potential exists for under-collateralization. This risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Council has no formal policy regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance.

At June 30, 2022, the Council's deposits had a carrying amount of \$5,267,789 and a bank balance of \$5,564,922. Of the bank balance, \$250,000 was covered by federal depository insurance, and \$5,314,922 in deposits was covered by collateral held under the pooling method.

<u>Investments</u>

At June 30, 2022, the Council had \$505,780 invested with the North Carolina Capital Management Trust's Term Portfolio which carried a credit rating of AAAm by Standard and Poor's and AAA-mf by Moody's Investor Service. As of June 30, 2022, the NCCMT Term Portfolio has a duration of .15 years. Because the NCCMT has a weighted average maturity of less than 90 days, it is presented as an investment with a maturity of less than 6 months. The Council has no policy for managing interest rate risk or credit risk.

Accounts Receivable

Receivables at the government-wide level consisted of the following at June 30, 2022:

	_Ge	General Fund	
Governmental activities:		_	
Due from other governments	\$	1,788,540	
Other		39,809	
	\$	1,828,349	

Due from other governments consists of the following:

	General Fund	
Governmental activities:		
Receviables under expenditure-driven		
federal and state grants	\$	1,499,397
Technical assistance contracts with local		
governmental entities		140,777
Total	\$	1,640,174

Note receivable

The note receivable in the General Fund and in Governmental Activities consisted of the following at June 30, 2022:

	Bro	Brownfields		
	Asse	Assessment &		
	Cleanu	Cleanup Cooperative		
	Agı	reements		
Note receivable	\$	983,613		

The Council participates in a revolving loan program sponsored by the Environmental Protection Agency (EPA) seeking to clean sites identified under the Brownfields Program. The revolving loan program

lends to qualified entities who then work with the EPA to bring the site into environmental standards. The loan bears interest at 1%. The balance of the loan receivable was \$983,613 as of June 30, 2022. No payments were made in 2022 and no interest was accrued as earned. The Council feels that the full amount of the note receivable is collectible. In addition, the Council feels their security interest in collateralized property is sufficient to ensure repayment in the event of non-payment.

Capital Assets

Capital asset activity for the year ended June 30, 2022, was as follows:

	В	eginning				Ending
	B	alances	Increases	Retirements	B	alances
Governmental activities: Capital assets being depreciated:						
Buildings and improvements Equipment and furniture	\$	49,648 271,454	\$ -	\$ -	\$	49,648 271,454

Depreciation was charged to governmental functions as follows:

General government	\$ 119
Economic and physical development	3,493
Human services	4,065
Transportation	4,272
Workforce development	 1,439
Total	\$ 13,388

Right to Use Leased Asset

The Council has recorded a right to use leased asset. The right to use asset is the office space at 339 Leicester Crossing. The related lease is discussed in the Lease subsection of the Liabilities section of the footnotes. The right to use leased asset is amortized on a straight-line basis over the terms of the related leases.

Right to use asset activity for the Primary Government for the year ended June 30, 2022, was as follows:

	Beginning				Ending
	Balances	Incre	ases	Decreases	Balances
Right to use assets:

Liabilities

Pension Plan and Other Postemployment Obligations

a. Local Government Employees' Retirement System

Plan Description. The Council is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members - nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Annual Comprehensive Financial Report (ACFR) for the State of North Carolina. The State's ACFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or

at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service. Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. The Council's employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Council's contractually required contribution rate for the year ended June 30, 2022, was 11.41% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Council were \$313,661 for the year ended June 30, 2022.

Refunds of Contributions. Council employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions, or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the Council reported a liability of \$443,056 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020. The total pension liability was then rolled forward to the measurement date of June 30, 2021 utilizing update procedures incorporating the actuarial assumptions. The Council's proportion of the net pension liability was based on a projection of the Council's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2021, the Council's proportion was 0.029%, which was the same as its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the Council recognized pension expense of (\$186,478). At June 30, 2022 the Council reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	140,952	\$	-
Changes of assumptions		278,352		-
Net difference between projected and actual earnings on pension plan investments		-		632,994
Changes in proportion and differences between Board contributions and proportionate share of contributions		22,045		35,027
Council contributions subsequent to the measurement date		313,661		
Total	\$	755,010	\$	668,021

\$313,661 reported as deferred outflows of resources related to pensions resulted from Council contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended	June	30:
------------	------	-----

2023 2024 2025 2026 2027 Thereafter		\$	31,020 (23,297) (40,695) (193,700)
	Total	<u>\$</u>	(229,672)

Actuarial Assumptions. The total pension liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.0%

Salary increases 3.5% to 8.10%, including inflation and productivity factor

Investment rate of return 7.00%, net of pension plan investment expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2020 actuarial valuation were based on the experience study prepared as of December 31, 2019 and adopted by the Board of Trustees on January 28, 2021. Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurements.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2021 are summarized in the following table:

Asset Class	TargetAllocation					
Fixed Income	29.0%	1.4%				
Global Equity	42.0%	5.3%				
Real Estate	8.0%	4.3%				
Alternatives	8.0%	8.9%				
Credit	7.0%	6.0%				
Inflation Protection	6.0%	4.0%				
Total	100.0%					

The information above is based on 30 year expectations developed with the consulting actuary for the 2018 asset, liability, and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate. The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Council's proportionate share of the net pension asset to changes in the discount rate. The following presents the Council's proportionate share of the net pension liability calculated using the discount rate of 6.50%, as well as what the Council's proportionate share of the net pension asset or net pension liability would be if calculated using a discount rate that is 1-percentage-point lower (5.50%) or 1-percentage-point higher (7.50%) than the current rate:

	1% 	1% Decrease (5.50%)		te (6.50%)	Increase (7.50%)
Board's proportionate share of the net pension liability (asset)	\$	1,719,906	\$	443,056	\$ (607,718)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Annual Comprehensive Financial Report (ACFR) for the State of North Carolina.

b. Supplemental Retirement Income Plan

Plan description. The Council contributes to the Supplemental Retirement Income Plan, a defined contribution plan administered by the Department of the State Treasurer and a Board of Trustees. The Plan provides retirement benefits to all regular Council employees. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

Funding policy. The Council contributes, at each payroll, four percent of each employee's salary. All amounts contributed are vested immediately. Also, employees may make voluntary contributions to the Plan. Contributions for the year ended June 30, 2022 totaled \$159,921, which consisted of \$94,437 from the Council and \$65,484 from employees.

c. Health Care Savings Plan

Plan description. The Council periodically contributes to a health care savings plan for each full-time employee who has more than one year of service. This plan is a defined contribution plan administered by Nationwide Mutual Insurance Company. Eligible employees may access the funds in their account after termination of employment with the Council.

Funding policy. Annually, the Council determines the amount, if any, that will be contributed toward each eligible employee's account. For the year ended June 30, 2022, the Council contributed \$600 toward each full-time employee's account with more than 1 year of service. For employees that became eligible during the year, a prorated amount was contributed. In total the Council contributed \$21,049 to the plan during the year.

Other Employment Benefits

Death Benefits

The Council has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Governmental Employees' Retirement System (Death Benefit Plan), a multiple-employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest months' salary in a row during the 24 months prior to the employee's death, but the benefit may not exceed \$50,000 or be less than \$25,000. Because all death benefit payments are made from the Death Benefit Plan and not by the Council, the Council does not determine the number of eligible participants. The Council has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. Contributions are determined as a percentage of monthly payroll based upon rates established annually by the State.

Accounts Payable

Accounts payable at June 30, 2022, are as follows:

		ue to sub-			Due	e to vendors
		recipients and		ue to other	an	d accrued
	be	enificiaries	go	governments		expenses
General Fund	\$	1,445,221	\$	58,155	\$	604,351

Unearned Revenues

The balance in unearned revenues at year-end is composed of the following elements:

		Unearned
		Revenues
	<u> </u>	rtovoridoo
Unearned grant revenues	\$	1,502,713

LAND OF SKY REGIONAL COUNCIL NOTES TO THE FINANCIAL STATEMENTS For the Year Ended June 30, 2022

Deferred Inflows of Resources

The balance of deferred inflows of resources at year end is as follows:

	 Deferred Inflows of Resources				
Governmental Fund - General Fund Note receivable	\$ 983,613				
Governmental Activities					
Pension deferrals	\$ 668,021				

Risk Management

The Council is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The above entity participates in two self-funded risk financing pools administered by the North Carolina League of Municipalities. These pools are reinsured through commercial companies for single occurrence claims against general liability, auto liability, police professional liability and public officials liability in excess of \$1,000,000; property in excess of \$500,000 and \$1,000,000 up to statutory limits for workers' compensation for the 7/1/2022-7/1/2023 policy period.

The Council carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage from the previous year, and settled claims have not exceeded coverage in any of the past three fiscal years.

In accordance with G.S. 159-29, the Council's employees that have access to \$100 or more at any given time of the Council's funds are performance bonded through a commercial surety bond. The finance officer is bonded for \$90,000. The remaining employees that have access to funds are bonded under a blanket bond for \$250,000.

Long-Term Obligations

a. Lease

In January of 2008, the Council entered into a lease-purchase agreement with Buncombe County for the purpose of acquiring the office space at 339 Leicester Crossing. The lease agreement qualifies as other than short-term leases under GASB 87 and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception.

During the year ended June 30, 2015, the Council returned a portion of the office space to the County, and the original agreement was amended with a debt balance representing the portion related to the remaining space, \$1,609,394. The new lease- purchase agreement requires semi-annual payments of

\$61,429 through June 30, 2034 and one final payment of \$12,153 in December 2034. There are no variable components of the lease. The lease liability is measured at an imputed discount rate of 4.15%. As a result of the lease, the Council has recorded a right to use asset with net book value of \$1,159,326 at June 20, 2022. The right to use asset is discussed in more detail in Note 1.

The following is a schedule of the future minimum lease payments and the net present value of the minimum lease payments as of June 30, 2022:

At June 30, 2022, assets recorded under the capital leases were as follows:

Year Ending June 30,	
2023	\$ 122,858
2024	122,858
2025	122,858
2026	122,858
2027	122,858
2028-2032	614,288
2033-2035	 257,872
Total payments	1,486,450
Less interest	(327,124)
Present value of minimum lease payments	1,159,326
Less current portion	 (75,522)
Long-term lease obligation	\$ 1,083,804

b. Long-Term Obligation Activity

The following is a summary of changes in the Council's long-term obligations for the fiscal year ended June 30, 2022:

	Balance			Balance	
	July 1,			June 30,	Current
	2021	Increases	eases Decreases 2022		Portion
Governmental activities:					_
Lease liability	\$ 1,231,809	\$ -	\$ 72,483	\$ 1,159,326	\$ 75,522
Net pension liability	1,007,349	-	564,293	443,056	-
Compensated absences	228,564	285,928	216,037	298,455	125,322
Total	\$ 2,467,992	\$ 285,928	<u>\$ 852,813</u>	\$ 1,901,107	\$ 200,844

Compensated absences for governmental activities are liquidated by the general fund.

Net Investment in Capital Assets

Net investment in capital assets is calculated as follows:

	Governmental Activities				
Capital assets Less related debt	\$	6,443 -			
Net investment in capital assets	\$	6,443			

Fund Balance

The following schedule provides management and citizens with information on the portion of General Fund's fund balance that is available for appropriation:

LAND OF SKY REGIONAL COUNCIL NOTES TO THE FINANCIAL STATEMENTS For the Year Ended June 30, 2022

NOTE 3 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Federal and State Assisted Programs

The Council has received proceeds from several federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

NOTE 4 - CHANGE IN ACCOUNTING PRINCIPLE

The Council implemented Governmental Accounting Standards Board (GASB) statement 87, Leases, in the fiscal year ending June 30, 2022. The implementation of the statement required the Council to record beginning right to use leased assets and related lease liabilities. Implementation of this statement had no impact on the Board's June 30, 2021 net position, as previously reported.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

INDEPENDENT AUDITORS' REPORT

Board of Delegates Land of Sky Regional Council Asheville, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the governmental activities, and each major fund, and the aggregate remaining fund information of the Land of Sky Regional Council, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Land of Sky Regional Council's basic financial statements and have issued our report thereon dated December 9, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Land of Sky Regional Council's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Council's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Land of Sky Regional Council's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report On Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance and the State Single Audit Implementation Act

INDEPENDENT AUDITORS' REPORT

Board of Delegates Land of Sky Regional Council Asheville, North Carolina

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Land of Sky Regional Council's compliance with the types of compliance requirements described in the OMB *Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of Land of Sky Regional Council's major federal programs for the year ended June 30, 2022. Land of Sky Regional Council's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Land of Sky Regional Council complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State Single Audit Implementation Act. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report. We are required to be independent of Land of Sky Regional Council and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provides a reasonable basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Land of Sky Regional Council's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Land of Sky Regional Council's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Land of Sky Regional Council's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Land of Sky Regional Council's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and
 design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding Land of Sky Regional Council's compliance with
 the compliance requirements referred to above and performing such other procedures as we
 considered necessary in the circum- stances.
- Obtain an understanding of Land of Sky Regional Council's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Land of Sky Regional Council's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency *in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in Auditor's Responsibilities for the Audit of Compliance section and above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies or material weaknesses in internal control over compliance. Given these limitations, during our audit, we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report On Compliance for Each Major State Program and Report on Internal Control Over Compliance Required by the Uniform Guidance and the State Single Audit Implementation Act

INDEPENDENT AUDITORS' REPORT

Board of Delegates Land of Sky Regional Council Asheville, North Carolina

Report on Compliance for Each Major State Program

Opinion on Each Major State Program

We have audited the Land of Sky Regional Council's compliance with the types of compliance requirements described in the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission that could have a direct and material effect on each of Land of Sky Regional Council's major state programs for the year ended June 30, 2022. The Land of Sky Regional Council's major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Land of Sky Regional Council complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major State programs for the year ended June 30, 2022.

Basis for Opinion on Each Major State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the State Single Audit Implementation Act. Our responsibilities under those standards, the Uniform Guidance, and the State Single Audit Implementation Act are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report. We are required to be independent of Land of Sky Regional Council and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provides a reasonable basis for our opinion on compliance for each major State program. Our audit does not provide a legal determination of the Land of Sky Regional Council's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of

laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Land of Sky Regional Council's State programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Land of Sky Regional Council's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the State Single Audit Implementation Act will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Land of Sky Regional Council's compliance with the requirements of each major State program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the State Single Audit Implementation Act, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Land of Sky Regional Council's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circum- stances.
- Obtain an understanding of Land of Sky Regional Council's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, and the State Single Audit Implementation Act, but not for the purpose of expressing an opinion on the effectiveness of Land of Sky Regional Council's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency *in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a State program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a State program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a State program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in Auditor's Responsibilities for the Audit of Compliance section and above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies or material weaknesses in internal control over compliance. Given these limitations, during our audit, we did not identify any deficiencies in internal control over compliance that we consider to be

material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State Single Audit Implementation Act. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal and State Awards:

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal and State awards (SEFSA) includes the federal and State grant activity of Land of Sky Regional Council under the programs of the federal government and the State of North Carolina for the year ended June 30, 2022. The information in this SEFSA is presented in accordance with the requirements of Title 2 US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the State Single Audit Implementation Act. Because the Schedule presents only a selected portion of the operations of Land of Sky Regional Council, it is not intended to and does not present the financial position, changes in net assets or cash flows of Land of Sky Regional Council.

Note 2. Summary of Significant Accounting Policies

Expenditures reported in the SEFSA are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Land of Sky Regional Council has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 3. Loans Outstanding

Land of Sky Regional Council had the following loan balance outstanding at June 30, 2022. Loans were made in prior years and were included in the prior years' SEFSAs. Balances and transactions related to these programs are included in the Council's basic financial statements.

		State/		
Grantor/Program Title	Federal AL Number	Pass-through Grantor's Number	Amount Outstanding	
Brownfields Assessment & Cleanup Cooperative Agreements	66.818		\$ 983,613
